

Louisville Police Department

992 West Via Appia Way
Louisville, Colorado 80027

Office 303.666.8633
Emergency 911

Severe Weather Notifications

Weather information and severe weather notifications can be obtained from a variety of sources and we encourage residents to use multiple types rather than relying on a single source. Louisville's emergency warning sirens are activated when a danger is in progress or is highly likely. When you hear the sirens, seek out additional information from other media including:

AM-FM radio stations.

Local television stations.

Wireless Emergency Alerts – WEA – Not all mobile communications device are WEA capable. These links explain WEA and direct you to provider specific information.
